

AMENDMENTS TO THE CLAIMS

1.-14. (Canceled).

15. (Previously Presented) An information recording device, comprising:
a recorder which can record at least either image or audio information;
a wireless communication device for transmitting said information to external equipment through wireless communication;
a carrier generating section for generating a carrier for said wireless communication device; and
a controller for controlling the generation and pause of said carrier,
wherein said controller causes said carrier generating section to pause the generation of the carrier when the information recorder receives an instruction to capture an image, and the controller causes the carrier generating section, which is transmitting the at least image or audio information, to pause at least for a period from the time when said image or audio information is captured to the time when said image or audio information is recorded, and
wherein the controller pauses only a carrier oscillation section of the carrier generating section while a clock oscillator of the carrier generating section is active.

16.-17. (Canceled).
